Dearest Colleagues and Dear Members,
Welcome in Rome!

On Thursday 10 October, for the entire pre-congress day, we have scheduled “The Orthodontic Circle Day”; six leading speakers from the international orthodontic scene will discuss specific topics with a purely clinical approach, in line with the scientific topics and the key words chosen for this Congress.

Different courses have been organized on Thursday: a hands-on course on wire bending technique in collaboration with S.I.Te.B.I. (Italian Society of Bidimensional Technique), a hands-on course on digital issues [Dolphin], a SIBOS (Italian Society of Biomechanics and Segmented Orthodontics) interdisciplinary meeting on orthodontic-periodontal issues and finally two courses sponsored by Biolux and Lancer.

This year the sessions are organized in six parallel scientific paths: **Aesthetic**, **Digital**, **Multidisciplinary**, **Hygienist**, **Orthodontic Staff** and **Lab Technicians** Path.

On Friday, during the Sessions on **Aesthetics** several specific aspects of macro and micro-aesthetics will be examined with a multidisciplinary approach. The session on Saturday will be devoted to vertical excess dysmorphism.

On Friday, the sessions on **Digital** Issues will focus on updates concerning diagnosis and treatment planning as well as therapeutic approaches and appliance preparation. Aligners will be one of the main topics, as they are increasingly used in orthodontic clinical practice but still need scientific validation. To this end, two different initiatives have been organised: a consensus conference and an exchange of expert opinions by internationally acclaimed speakers. The results will be presented on Saturday morning during a round table.

The **Multidisciplinary Path** will comprise four different thematic sessions: Orthodontics and TMDs, OSAS (with SIOCMF - Italian Society of Dentistry and Maxillofacial Surgery), Orthodontics and Periodontics (with SIIdP – Italian Society of Periodontology and Implantology) and a seminar organised with SIOH (Italian Society for Oral Health and Disability).

This year there will be also plenty of initiatives for other professionals who play a crucial role in the orthodontic practice, namely Dental Hygienists, Dental Assistants and Lab Technicians.

The **Hygienist Path** will comprise a one-day course on Thursday and a scientific session on Friday in collaboration with AIDI, ATASIO and UNID. On Saturday there will be a joint SIDO-SIIdP session.

On Friday and Saturday there will be a tailor-made path for Dental Assistants, **Orthodontic Staff**, in collaboration with IDEA and AIASO aimed at informing and training participants also in light of the recent introduction of legislation having a direct impact on professional standards.

Last but not least, there will be a scientific programme for **Lab Technicians** organised with ORTEC.

The **Poster Session** will focus on the same topics that will be covered during the Congress, going back to a traditional presentation format which can enhance the value of contributions and offer an opportunity to give feedback and exchange opinions with the presenters.

The Congress is also an opportunity to have fun together.

There will be social events every evening, from the first to the last day, which will make 2019 SIDO Congress a unique experience in the beautiful city of Rome!

On Thursday, October 10, after the **Opening Ceremony** with a **special guest**, there will be the usual **Get Together**, where all congress participants are invited to an aperitif.

The **President's Reception** will take place on Friday, October 11, at Salone delle Fontane where participants will enjoy a ... SIDO NIGHT.

And finally... we could not fail to organise our sport event: the 2nd SIDO FUN RUN on Saturday morning!

Enjoy the Congress!

E.C.M. CREDITI FORMATIVI

E.C.M.

Commissione Nazionale Formazione Continua

Tutti i corsi fanno parte del Piano Formativo 2019 della SIDO che, in qualità di Provider riconosciuto dal Ministero della Salute, potrà rilasciare i crediti formativi. Tutti i Partecipanti interessati

ad ottenere i crediti ECM sono tenuti a compilare la scheda di valutazione dell'evento, che si trova all'esterno delle sale e che dovrà essere riconsegnata al termine dell'evento.

INFORMAZIONI

Come da nuove disposizioni è obbligatoria la registrazione della presenza in entrata ed in uscita. La SIDO si avvale pertanto di lettori a codice a barre per il rilevamento della presenza. Gli attestati ECM verranno spediti da SIDO solo ai partecipanti la cui presenza in sala è registrata per almeno il 90% (Delibera del 15.12.2016 “Criteri per l’assegnazione dei crediti alle attività ECM” – punto 2 “Convegni Congressi Simposi e Conferenze”).

Inoltre si segnala che, per eventi con Partecipanti superiori a 200 non è più prevista la compilazione della scheda di verifica dell’apprendimento, ma solo la compilazione della scheda di valutazione dell’evento.

QUESTIONARIO DI VALUTAZIONE E SODDISFAZIONE DEL CONGRESSISTA

Nel rispetto della normativa della certificazione di qualità ISO9001 la SIDO consegnerà a tutti i Partecipanti un questionario di valutazione e soddisfazione nel quale verranno richiesti dei feedback relativamente a: valutazione ed efficacia formativa del Congresso, gradimento del programma scientifico, valutazione dei servizi offerti e richiesta dei fabbisogni formativi. I dati raccolti verranno analizzati da SIDO per migliorare la qualità dei servizi offerti e monitorare la qualità formativa.
